

Apple Iphone And Ipad Parental Control Guide Controls & settings guide

You can enable restrictions to stop your children from using specific features and social media or gaming applications on an iPhone or iPad. This includes blocking access to iTunes and restricting explicit content and in-app purchasing. You can also limit access to the camera and the sharing of photos.

1 How to enable Screen Time

Use Screen Time to set content privacy restrictions and manage in-app purchases

To set up Screen Time:

Step 1 – Go to Settings and tap Screen Time.

Step 2 – Tap Continue, then choose This is My [Device] or This is My Child's [Device].

If it's a shared device and you'd like to ensure settings are not changed, then tap **Use Screen Time Passcode**.

Then re-enter the passcode to confirm.

If it's a child's device, you can follow prompts until you get to **Parent Passcode** and enter a passcode. Re-enter to confirm.

G	1 4 HI 7 RS	2 ^880 55 JKL 8 TUV	З рер 6 мио 9 жхуг		

2 Restrict content

Tap **Content & Privacy Restrictions**. If asked, enter your **passcode**, then you can turn on **Content & Privacy**.

Once you have set up your code, you can manage in-app purchases, access to apps and automatically filter website content to limit access to adult content in Safari and apps on your device.

3 Where to manage in-app purchases

Tap **iTunes & App Store Purchases**. Choose a setting and set it to **Don't Allow**.

Please note you can also change your password settings for additional purchases from the iTunes & App Store or Book Store. Follow steps 1-3, then choose Always Require or Don't Require.

4 Guided Access

Guided Access allows you to lock your iPhone or iPad when in an app. This may be useful for children as they won't be able to come out of that particular app and will stop them from accessing other apps and settings.

To enable Guided Access:

Step 1 – Go to your **Settings**, tap **Accessibility**, then scroll down and tap **Guided Access**.

Step 3 – Start the Guided Access, tap the side (power) button three times. When enabled, the buttons and touchscreen will be disabled.

In this section, you can also set a passcode, time limit and enable auto-lock features.

To turn it off, tap the side button three times.

Step 4 – You can change the options which will appear in the bottom left of your screen which will allow the configure the settings for the app you or your child is on.

Tip: Alternatively, you can easily turn on Guided Access by giving the command to Siri which Siri will automatically do for you.

5 How to prevent web content

iOS can automatically filter website content to limit access to adult content in Safari and apps on your device. You can also add specific websites to an approved or blocked list, or you can limit access to only approved websites. Follow these

f 🗖 🔿 in

steps:

Step 1 - Go to **Settings**, then **Screen time**. Tap **Content & Privacy Restrictions** and enter your Screen Time **passcode**.

8 Turn off tracking

If you have the iOS 14.5 update or above, the App Tracking Transparency feature lets you decide if you want apps to track your activity for advertising purposes. This may not be suitable for children as it may encourage in-app spending.

To disable:

Go to **Settings**, then **Privacy**. Tap **Tracking.** The toggle button should be grey – this means the feature is disabled. Green means enabled.

Important: If you allow apps to ask to track you, you'll start to see prompts when you launch updated apps requesting permission to track your activity. If you don't

allow apps to ask you for permission, all apps will automatically be blocked from tracking your activity.

¹⁰ Allow changes to other settings and features

You can allow changes to other settings and features, the same way you can allow changes to privacy settings.

Go to **Settings**, then **Screen Time**. Tap **Content & Privacy Restrictions** and, if asked, enter your Screen Time **passcode**. Under **Always Allowed**, select the features or settings you want to allow changes to and choose **Allow** or **Don't Allow**.

Step 1 – Go to Settings > Focus.

Step 2 – Tap a provided Focus option – such as Do Not Disturb, Personal, Sleep or Work – then tap Customise Focus.

Step 3 – Set up your Focus. You can select allowed or silenced notifications from people and apps, connect your Lock Screen or Home Screen, have this Focus turn on automatically, and add Focus filters.
