

Bing Safesearch Controls & settings guide

SafeSearch can help you block inappropriate or explicit images from your Bing Search results. The SafeSearch filter isn't 100% accurate, but it helps you avoid most violent and adult content.

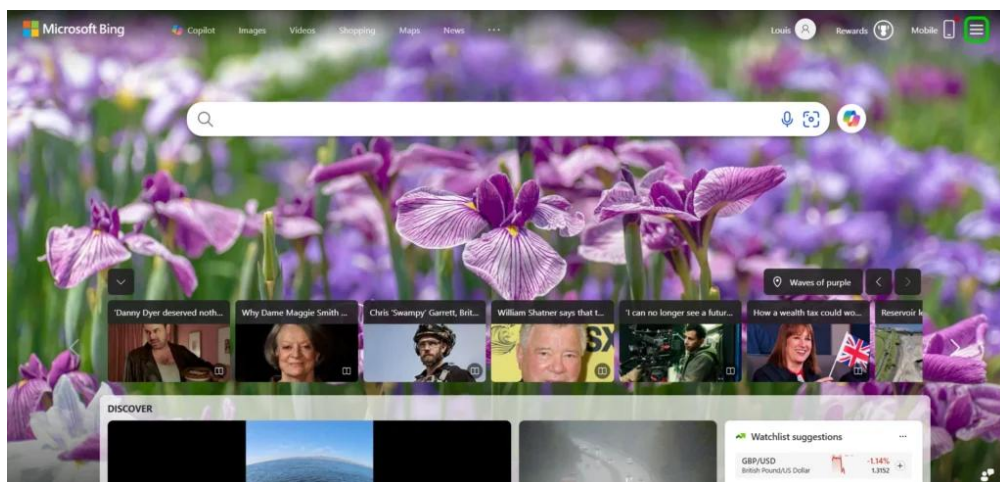

1

How to set safety settings on Bing SafeSearch

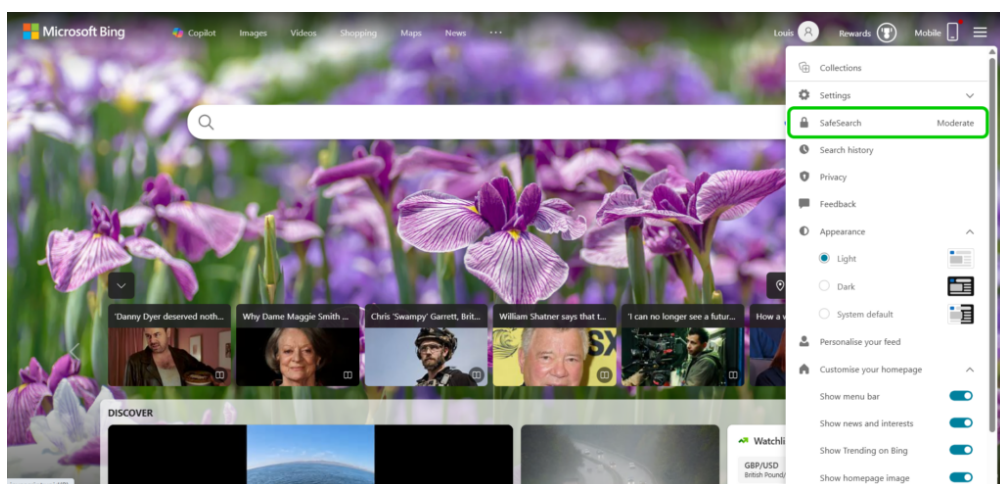

To set safety settings:

Step 1 – Go to **bing.com** on your browser.

Step 2 – Click the **3 horizontal lines** in the top right corner.

Step 2 – From the dropdown menu, select **SafeSearch**.

Step 3 – Here you can select what level of SafeSearch filtering you would like, with an option of **Off**, **Moderate** or **Strict**.

Strict - All adult content is filtered out

Moderate - Adult images and videos are filtered, but not text
Off - No content is filtered

Microsoft Bing Search the web

Settings

SEARCH

SafeSearch

☐ Strict
 Filter out adult text, images and videos from your search results
☒ Moderate
 Filter adult images and videos but not text from your search results
☐ Off
 Don't filter adult content from your search results

Still seeing inappropriate content? [▼](#)

Location

Enter your city and state or postcode. We use your location to show you more relevant search results.

Enter city, address or postcode [X](#)

Search suggestions

☒ See search suggestions as you type

Results

☒ Open links from search results in a new tab or window
☒ Open links from news results in a new tab or window

Chat response on result page

Choose how often do you want to see chat responses on the search result page. [Auto \(Default\) ▼](#)

Step 4 – Once you've selected the level of filtering you want, scroll to the bottom of the page and click **Save**.

Your Bing will now filter adult content.
