Bt Mobile Parental Controls

Controls & settings guide

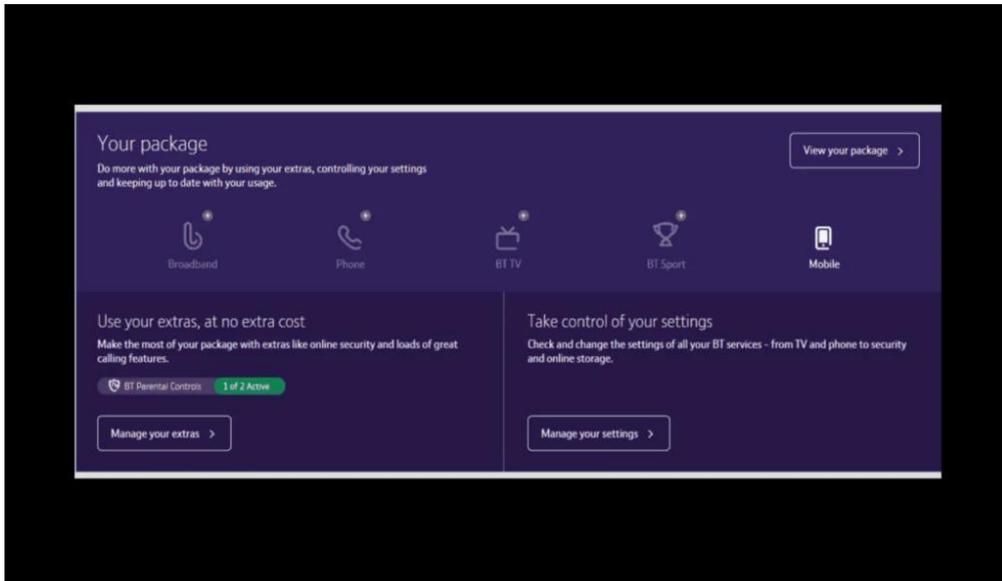

BT Mobile Parental Controls are set to 'Light' filter as default to block content only suitable for adults. You can apply 'Strict' setting to block adult content and unmoderated social networking sites, online dating and chat sites, or turn off the filter.

1 Log in to your "MyBT" account

Go to [MyBT](#) and log in using your BT ID and Password. If you haven't got an account click the 'Sign up' button.

A screenshot of the MyBT login page. The page is white with a black background behind it. At the top, there is a 'BT ID' label above a text input field. Below the input field is a link for 'Forgotten BT ID?'. Underneath is a 'Password' label above another text input field, with a link for 'Forgotten password?' below it. A checkbox labeled 'Remember me' with a question mark icon is checked. A blue button labeled 'Log in to My BT' is positioned below the password field. At the bottom of the form area, there are links for '< Back', 'Help', and 'Security'. Below the form, there is a 'Quick links' section with several links: 'Track your order >', 'Report or track a fault >', 'Pay a bill >', 'Get help or contact us >', and 'Download the My BT App >'. At the very bottom, there is a section titled 'Looking for BT Yahoo! Mail?' with a link: 'Go to our email log in page > to log in to your BT Yahoo! Mail inbox.'

2 Scroll down to 'Your package' and click the mobile icon

3 Find "Parental Controls"

Then scroll down to 'Parental Controls' where you will what filters you have on or if you have turned off Parental Controls. Click 'get started' to activate, and once activated, you will then be able to change your filter level to suit your family.
