Google Nest Filters Guide

Controls & settings guide

Google Nest is a line of smart home products that include smart speakers and smart displays. Used with the Google Home app you can apply content filters, and block explicit music and video content from a range of apps. It can also be used alongside Google Digital Wellbeing tools to help children benefit from connected technology.

1 How to set filters on Nest

Step 1 – Open the Google Home app

Step 2 – Go to settings and click on the **gear icon**

Step 3 – from there go to the Digital Wellbeing options and select '**Set up**' and '**Add device filter**'

You can choose to set the following features:

Allow any video

Only allow filtered videos

Block all videos

Irrespective of the filters, audiobooks and radio stations will always be available.
