NOW

## **Now Tv Safety Controls & settings guide**

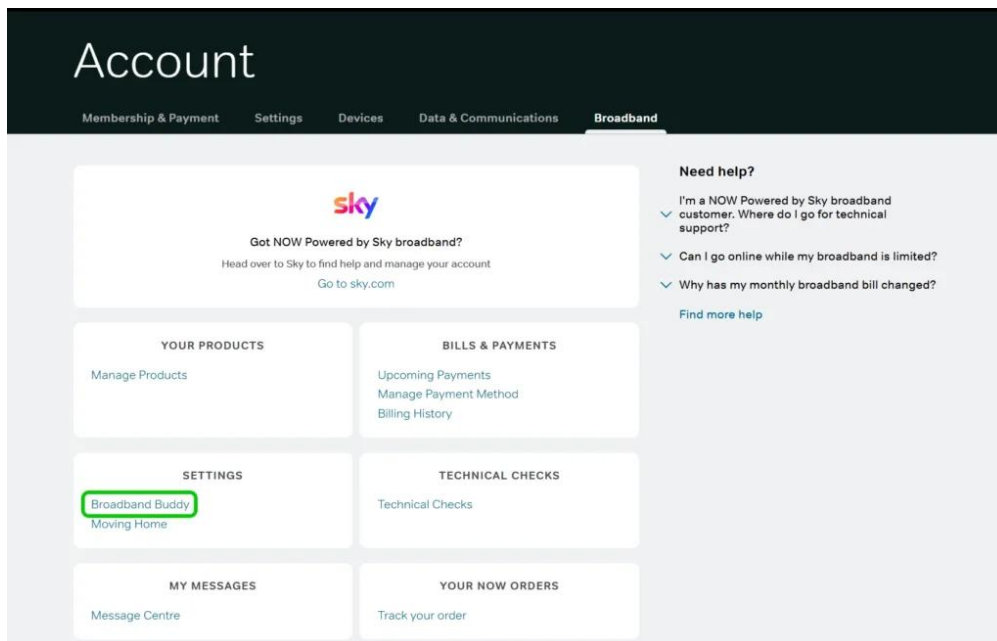

NOW TV's Broadband Buddy allows you to control what websites your family can access. It also helps protect you from websites that try to collect your private information without your knowledge, and sites that might harm your computer or other devices. See our step-by-step guide to get set up.

# 1 How to set Broadband Buddy on Now TV

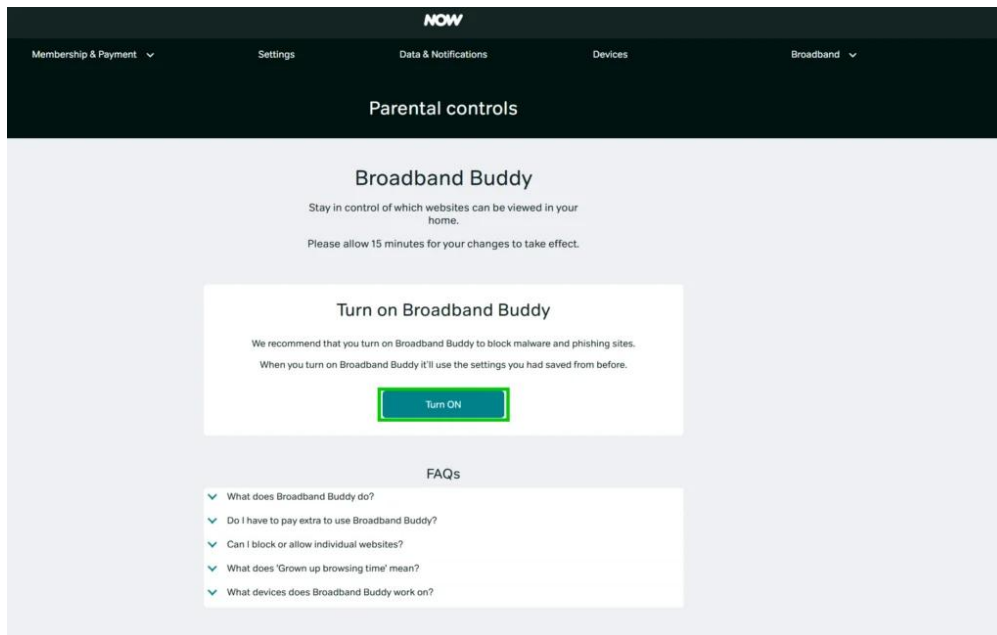

**Step 1** – Go to [nowtv.com](http://nowtv.com) and sign into your account.

**Step 2** – Go to the '**Broadband**' section of My Account, and under the 'Settings' click on **Broadband Buddy**.

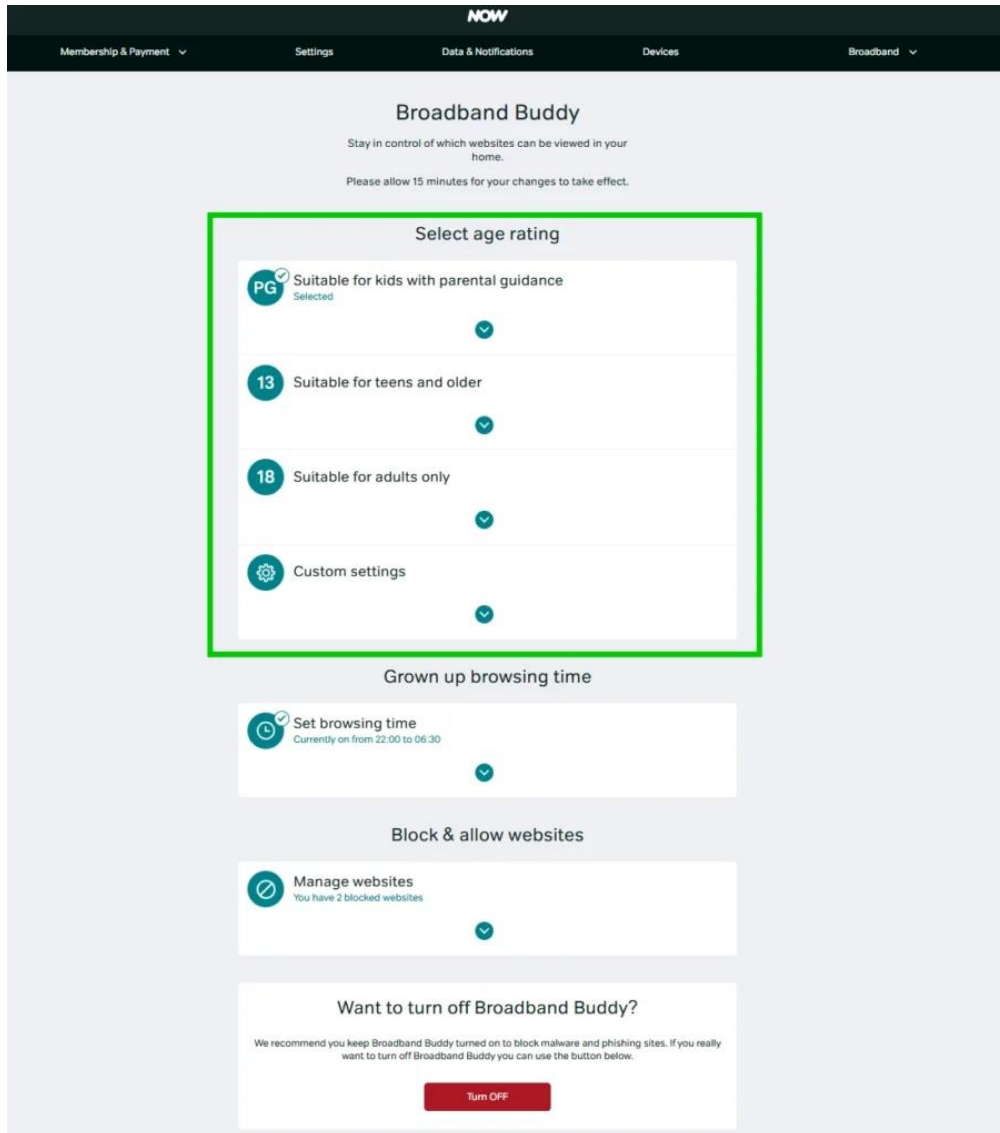

**Step 3** – Under 'Turn on Broadband Buddy', click **Turn ON**.

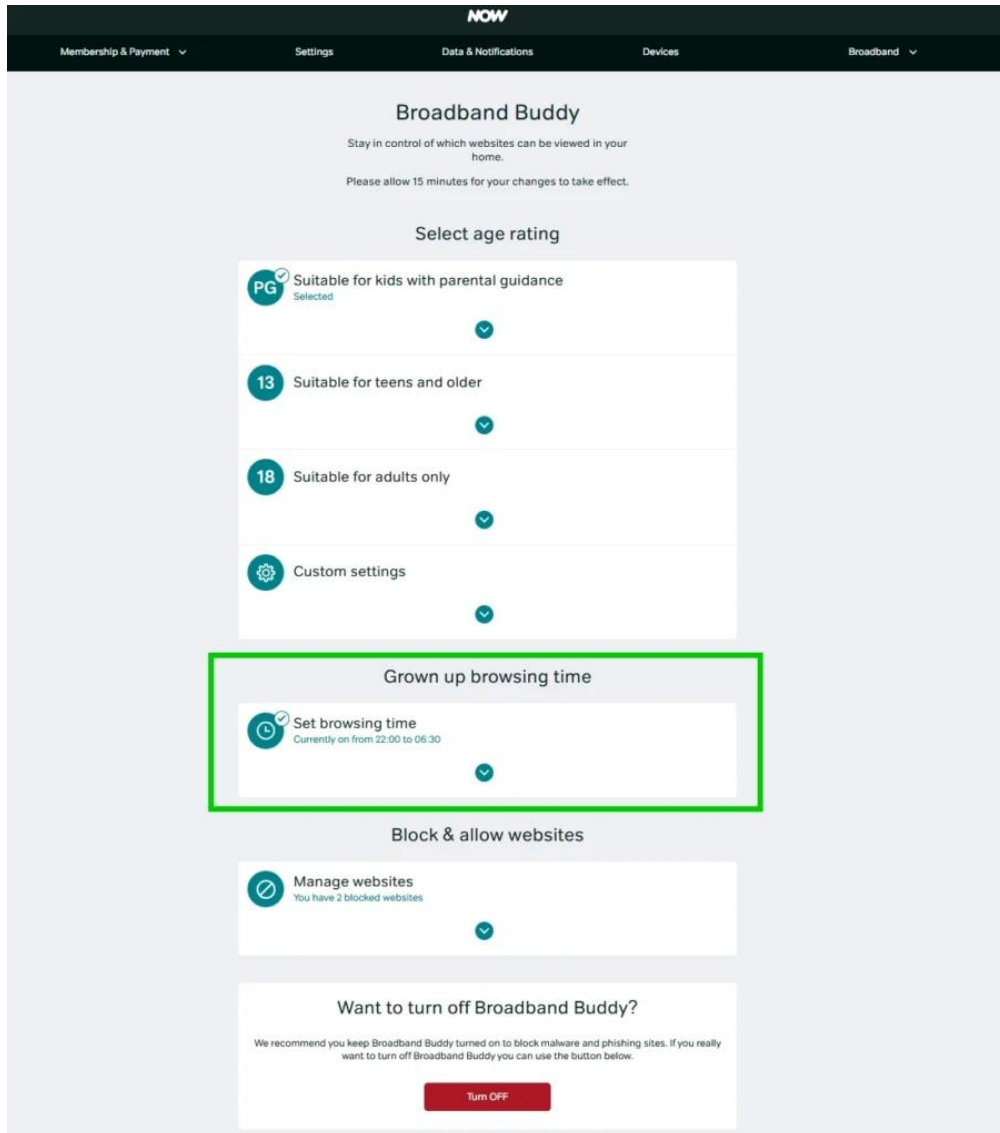

Broadband Buddy is now activated.

## 2 Navigating the Broadband Buddy Settings

**Select age rating** – Simply choose the appropriate age rating for your family, to suit the people who'll be using broadband in your home. This automatically creates the appropriate internet security settings for all your devices.

**Grown up browsing time** – You can set a specific time of the day when 18 age rated websites are allowed. This is super handy if you have kids you want to protect during the day but want don't want any restrictions after they've gone to bed.

**Block & allow websites** – Here you can control which websites your family can access and when, on all devices connected to broadband. You'll also have protection from phishing websites that try to collect your private information, as well as security against malware-infected websites that can damage your computer and other devices.
