

Playstation Network Safety Controls & settings guide

If your family uses a PlayStation console, you likely also use the PlayStation Network (PSN). Create a child account and set limits to keep them safe online. Have full control over the restrictions placed on their account to restrict how they interact on the platform.

Go to <u>www.playstation.com</u> if you need to create a parental/master PlayStation Network account then click on "**Join Today**" and follow the steps otherwise click on "**Sign in to PSN**".

2 Go to "Account Settings"

Once signed in click on the link to "**Account Settings**" and then confirm your log in details.

3 Select the "Family Management" tab

Then click on "Family Management". Click "OK" to confirm.

Confirm your account details

You will need to confirm your account details again. Click "Continue".

5 Click on "Add Family Member"

Then Click on "**OK**".

6 Fill out the details for your child

Their personal information like birthday is used to determine their age but is private. Use their email address or your own. The username and password to use for this account are generated on this page. Click "**I Agree. Continue**" when finished.

7 Access your email account

You will now need to access the email account of your parental/master account to verify the creation of the sub-account. Click the link in the email and then move on to the next step.
