Samsung Family Hub Security Controls Guide

Controls & settings guide

Samsung Family Hub™ is a refrigerator with a Wifi-enabled touchscreen. It lets you manage your groceries and connect with your family, stream music or mirror a compatible TV. You can manage security controls and set restrictions on Family Hub features and apps to make it safer for the whole family to use.

1

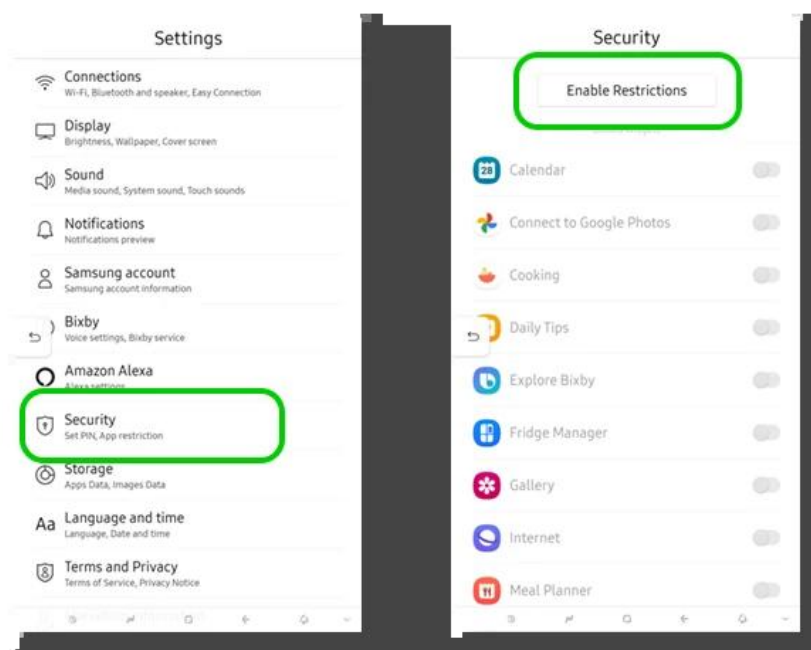

From the home screen, select **Settings**, which is shown by a gear icon

2

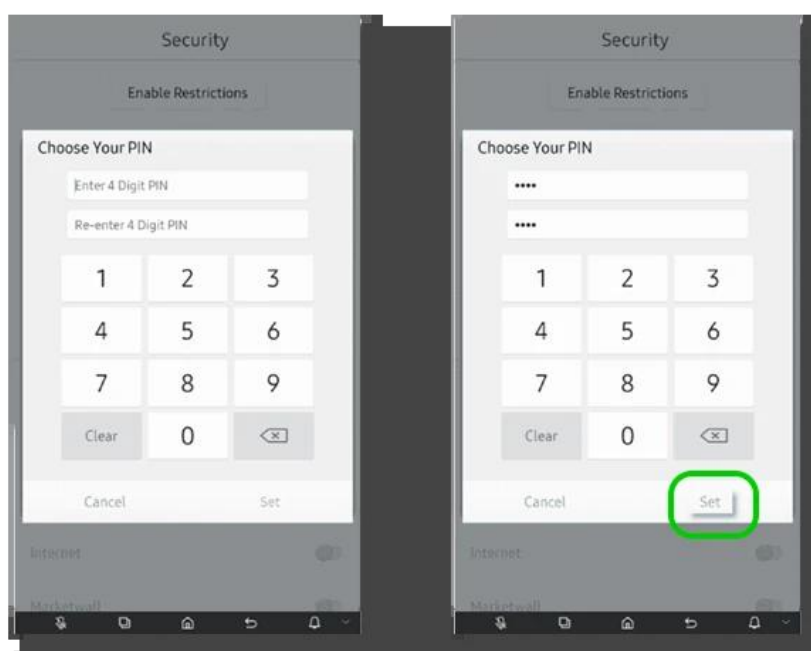

From the **Settings** menu, select **Security**

Then tap **Enable Restrictions**.

3 When prompted, set your 4-digit PIN

Your children should not know this number. **Confirm** your PIN and press **Set**.

4

Now, you can select the widgets you want to have a digital PIN to restrict access to

Select restricted apps by turning the toggle **blue**.

To disable Samsung Family Hub security controls, touch **Disable Restrictions**.
