Parental Controls information

Type of guide

Smartphones and other devices

Features and Benefits

You can enable restrictions to stop your children from using specific features and applications on an iPhone, including blocking access to iTunes, restrict explicit content and in-app purchasing. You can also limit access to the camera and sharing of photos.

What specific content can I restrict?

Apps Access

Browser Access

In App purchasing

Innapropriate content

Media streaming

Online games

Sharing Data

Sharing location

Social networking

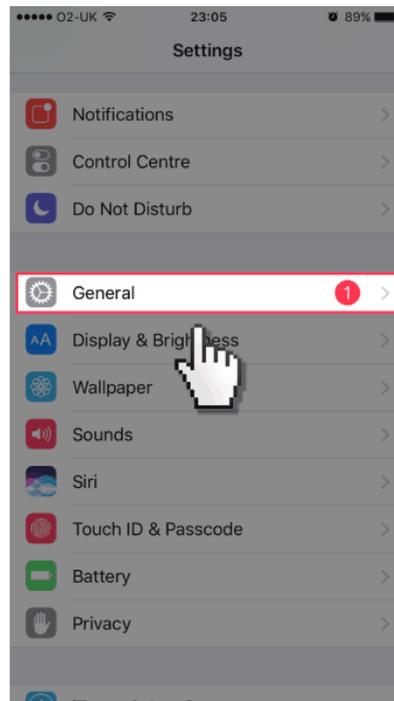

What do I need?

An iPhone handset and account

Apple iPhone guide

Open the settings application on the iPhone and tap the “General” section.

Apple iPhone guide

Scroll down and tap on “Restrictions”.

Apple iPhone guide

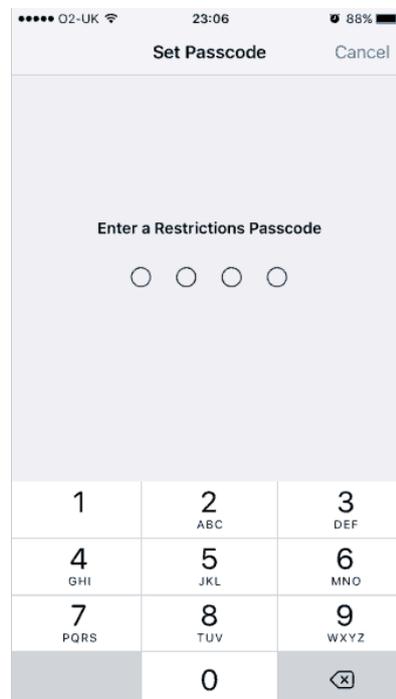

Tap on “Enable Restrictions”.

Apple iPhone guide

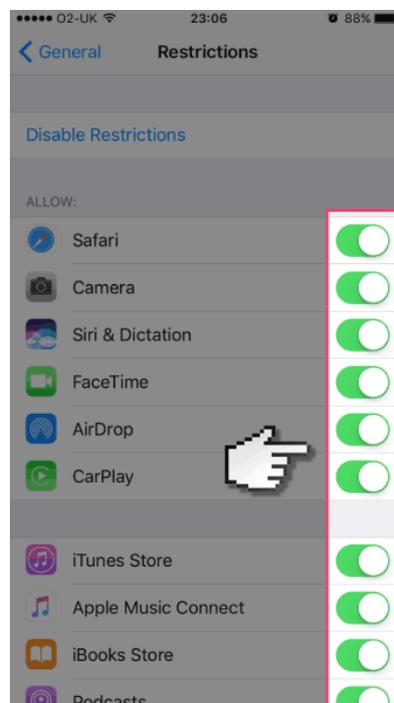

Enter a 4 digit passcode that you will use to toggle on and off the restrictions.

Apple iPhone guide

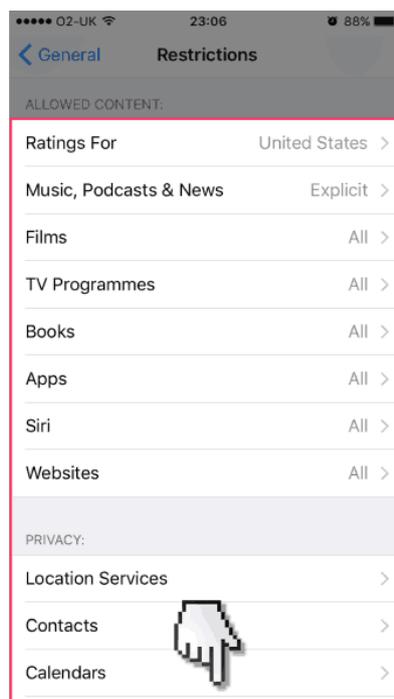

You are now able to toggle off any applications and features that you wish to have disabled on your child's iPhone.

Apple iPhone guide

Scroll down on the “Restrictions” page to see a full list of the features you can set restrictions on. You can turn off functions such as the Camera, Facetime, set age restrictions on content that can be viewed or apps installed plus turn off the ability to access photos for already installed apps.

Apple iPhone guide

- Once you have selected which apps and features to disable tap “General” to back out of the “Restrictions” section. Your selections are saved and you will be prompted to input the passcode you set up each time you return to the “Restrictions” section to make changes.
