3

How to set a pin On the profile selection page, select “Edit Profiles” and choose which profile you’d like to set a pin for. At the bottom of the profile page, find “Profile PIN” under “Parental Controls”. Set a 4-digit PIN. If you want to limit who can use this profile, toggle the option on. This will mean that kids cannot use this profile to access inappropriate content.

Other profile features Beyond parental controls, Disney+ profiles also have other features you can set for your child. Playback and language settings Autoplay limits how much time your child spends watching Disney+. Turn it off to help them step away once one thing finishes. Background videos can be turned off here if your child's device slows down with additional videos in the background. App language lets you change the app language from English (UK) to a number of other available languages. Feature Settings GroupWatch allows users to watch the same content at the same time even if they are not at home together. All users must have a Disney+ subscription to use this. Turn this off if you need to keep your child from misusing it.
