Steps for Freeview or Freesat users where aerial is plugged into the TV directly B. How to Apply Channel Lock and Edit channels: Step 1. This is on by default and can be disabled by your PIN. This function allows you to lock and delete channels. Step 2. Click on [Apply Channel Lock] and type in your PIN. Then the settings menu will automatically close. Step 3. To edit channels open your Channel List and finally select [Edit channels] at the bottom left of the menu bar. Step 4. Then select all the channels you wish to lock or delete. Note - if you delete a channel you can only restore it by going into Setting> Broadcasting> Auto Tuning Settings. Step 5. To lock the channel, type in your PIN. Step 6. Locked channels will have a small locked icon to show that you need the PIN to view them. Step 7. To watch that channel you will now be asked to type in the PIN.
