Features and Benefits

You can apply certain privacy and security settings on Twitch. You can make all these changes on the desktop and console versions of Twitch, however, the app does not have all the settings.

What specific content can I restrict?

- Chatting
- In App purchasing
- Inappropriate content
- Social networking
- Weapons & Violence, Gore & Hate

What do I need?

A Twitch account (email address/password) and an internet-enabled device
Enable Chat Filter (as a Viewer) You can enable certain filters when in the chat on Twitch such as discrimination, sexually explicit language, hostility and profanity. When watching a live stream scroll down to the bottom of the chat then click on the Setting icons in the bottom right hand, next to the Chat button. Click “Chat Filters” then click the toggle so it shows a tick and turns purple.

CHAT FILTERS
Enable filtering in chat

Select the filters you would like to block in chat across all channels. In channels you moderate, you will still see all messages.

- Discrimination
- Sexually Explicit Language
- Hostility
- Profanity

Hate and harassment are not allowed on Twitch. If you see it, please report it.
Report a Streamer When watching a live stream you can report the Streamer if they go against Twitch community guidelines. Scroll down to the bottom of the live stream video and click the three dots, then click “Report (user)”. Next, follow the prompts on the screen. The Twitch team will investigate your report.
Report

We are going to ask you a few questions to help us investigate your report quickly and accurately.

Where is the problem?
- In a live stream, video, or clip
- In a whisper (private message)
- In a chat message
- [Your username] isn't moderating their chat
- If [Your username]'s content (profile, emotes, etc.)
- The username is inappropriate
- In [Your username]'s channel points, rewards, or predictions
- Somewhere else...

6 Change Mature Content settings If your child is interested in streaming and is 18 or over, it’s better to enable the Mature Content just in case they have younger viewers. From your Home dashboard, click “Settings” then click “Stream”. Under Mature Content, click the toggle so it shows a tick and turns purple, this means the feature is enabled.

7 Change Moderation settings These settings are highly recommended if your teen is of a younger age and has a younger aged audience. You can filter and block inappropriate terms and hide risky messages. To automatically hold risk messages via AutoMod: From the Home dashboard, click “Settings” then click “Moderation” then click “AutoMod Rulesets”. Set the appropriate level of moderation from Level 1 (lowest) to Level 4 (the highest), then click “Save” when done. AutoMod will use A.I. (Artificial Intelligence) to detect potentially harmful messages.
AutoMod settings:

**Hostility**
- Aggression (Threatening, insulting, or promoting violence or other harm)
- Bullying (Name-calling, insults, or antagonization)

**Discrimination and slurs**
- Disability (Demonstrating hatred or prejudice based on perceived or actual medical or physical address)
- Sexuality, sex, or gender (Demonstrating hatred or prejudice based on sexual identity, sexual orientation, gender identity, or gender expression)
- Misogyny (Demonstrating hatred or prejudice against women, including sex or gender expression)
- Racism, ethnicity, or religion (Demonstrating hatred or prejudice based on race, ethnicity, or religion)

**Sexual content**
- Sex-based terms (Sexual acts, anatomy)

**Fakeness**
- Baiting (Baiting with the intent to mislead or deceive)
Step by step guide

To block terms and phrases: From the Home dashboard, click “Settings” then click “Moderation” then click “Blocked terms and phrases”. Search for a term to block, choose to add the term as Private or Public then click “Add”. Messages containing these words or phrases will be blocked from the chat.
