YouTube Kids App

Controls & Settings guide

YouTube Kids App offers controls to restricted search, set time limits and set a password to ensure settings can only be changed by parents on the app.
What do I need?
A Google account (Email & Password)

Restrictions you can apply

- Browser Access
- Inappropriate content
- Media streaming
- Parental control
- Search engines
Step by Step instructions

1. Launch the YouTube Kids app on the device.
2. Tap the search icon to switch the search function off or on the app

Do you want search on or off?

More YouTube Kids videos beyond the homescreen. This allows them to search for new content on their own.

When you **keep search off**, you limit your child to videos on the homescreen, including those that the app recommends. Your child can’t search for content, and recommended videos are based only on videos watched with search turned on.

3. Tap the padlock icon in the right-hand corner of the screen to see the parental controls.
4. On this screen enter the numbers or click ‘Set my own passcode’ to see the controls.
5. Click on the ‘Timer’ icon to set a time limit on the app

6. Tap on ‘Settings’ to see the app settings options
7. On the setting menu, tap ‘Homescreen age level’ and you’ll be able to make the homescreen age-appropriate for your child. You can choose from ‘All kids’, ‘Pre-school’ or ‘School age’.

8. You can also create a password from the settings menu.
9. By tapping on the ‘Clear history’ this will remove all logged videos that your child has watched, searched and that the app has recommended to them based on their viewing habits.

10. You can stop the app from recording their history by switching ‘Pause history’ on.
11. To report inappropriate videos on the app, tap the video to see the three button icon in the righthand corner of the video.

12. Tap the report icon and select from the options ‘Inappropriate audio’ or ‘Inappropriate visuals’. If you are signed in when reporting the video it will be automatically blocked from the YouTube Kids app.

YouTube say: “Flagged videos are reviewed 24 hours a day, seven days a week and will be removed from the YouTube Kids app if necessary.”
13. **Choose approved content only**

Tap the Lock icon in the bottom corner of any page in the app then complete the multiplication problem or read and enter the numbers that appear. Or, enter your custom passcode.

15. **Select Approved content only to enable. Review the information in the ‘Getting started’ pop-up.**
1. **Approve content yourself**

   Your child will only be able to watch videos, channels or collections that you’ve approved. Collections are videos and channels grouped by topics such as science and music.

   - Your child won’t be able to search.

2. **Getting started**

   Next, you’ll approve some content for your child. You can pick videos or channels, and you can also select collections from our partners or the YouTube Kids team featuring content that is considered appropriate for children. Please review carefully and choose sources that you trust.

   - CANCEL
   - START
16. Select START. Tap the + icon on any collection, channel or video to approve content that you’d like to make available to your child.

Then Select DONE in the red box at the bottom of the screen to exit.
